Girl Employees Jump from the Win-

Associated Press Local—Wire Service.  
CHICAGO, Jan. 2.—Fire in the Princess  
Knitting Works at Racine and Southport  
avenues, this afternoon, caused a panic  
among 150 girl employees. The fire ran  
up the elevator shaft and quickly en-  
veloped the three floors of the building. Es-  
cape by way of the stairs was cut off  
and the frightened employees burst open  
the windows and clung to the eaves, frantically screaming for help.  
Many jumped from the second floor and  
landed safely, and the women who ar-  
rived promptly rescued the others. Several  
girls were cut by broken glass and  
were badly bruised by jumping. The fire  
was extinguished with a loss of not to  
exceed \$30,000.

ALONE IN HIS GLORY.  
PARKHURST HAS HIS HOBBY TO  
HIMSELF.  
His Attack on Byrnes Does Not  
Please the Politicians—Platt  
Says the Doctor's Head  
is Swollen.

Associated Press Local—Wire Service.  
NEW YORK, Jan. 2.—Prominent citi-  
zens who have been active in the municipal  
reform movement, and politicians as well,  
seem to have left Dr. Parkhurst the  
Parthian shot, and are waiting for the  
superintendent of the Lenox Commit-  
tee and Superintendent Byrnes' testimony  
on the witness stand. Many business men  
and politicians have called on Mayor  
Strong, but reporters are unable to ob-  
tain the details of a discussion of the  
Parkhurst-Lenox controversy for pub-  
lication. One glances upon a man who did  
not wish his name mentioned, said:  
"It appears to me that Dr. Parkhurst  
had determined to attack Byrnes and the  
committee, he should have attended the  
last session. He had attended other ses-  
sions; he could have been present for the  
discussion of the committee. Byrnes was  
to be called. Being present, Dr. Parkhurst  
could have requested a caucus in his  
name. Lawyer Moses, his friend, Mr. Goff,  
to ask the questions he thought should  
be put to Byrnes. If Goff had refused  
these questions, if the committee had de-  
clined to allow the questions to be put,  
then Dr. Parkhurst might have had some  
excuse for attacking the committee."  
Goff declines most emphatically to have  
anything to say in the way of answer to Dr.  
Parkhurst's attack. He says that he is  
not a member of the committee, and that  
Byrnes was equally as reticent when ques-  
tioned about Dr. Parkhurst's attack.  
"Major Strong would not make it a mat-  
ter, and even Dr. Parkhurst denied him-  
self to reporters."

Thomas C. Platt was not in town, but his  
views concerning Parkhurst became public  
through the medium of a Wilkesbarre pa-  
per, whose representative interviewed the  
Republican leader. Said Platt in the  
Wilkesbarre reporter:  
"If Dr. Parkhurst has done much good,  
but by reason of the fatality of the  
New York newspapers I am inclined to  
think his head has become swollen. His  
ideas regarding the suppression of crime  
no longer amount to suggestions or re-  
quests, but are given out in a way that has  
become characteristic—that is, they  
are issued as orders. When asked  
his opinion regarding any movement look-  
ing toward the purification of the police  
force or the suppression of crime, it has  
become his custom to say, 'That man must go,  
or that must be done.' Some are pleased by  
this method, but others, men of wisdom  
who desire only practical reform, are in-  
clined to not only take exception to it,  
but criticize it harshly."

THE MONTH'S BUSINESS.  
A Deficit in the Government Receipts  
for December.  
Associated Press Local—Wire Service.  
WASHINGTON, Jan. 2.—The monthly  
statement of the receipts and expendi-  
tures for December shows a deficit for  
the month of \$2,859,324 and for the  
months of the present fiscal year  
\$27,544,465.  
The receipts from customs were \$11,  
303,049, against \$10,260,692 for the month  
of November; from internal revenue, \$5,  
507,429, against \$7,774,704 for November.  
The receipts from the sale of public land  
for the last six months were \$5,160,782,  
or \$8,201,276 in excess of the first half of  
the last fiscal year.

THE VANDERBILTS.  
New York Society Still Expecting

Associated Press Local—Wire Service.  
NEW YORK, Jan. 2.—W. K. Vanderbilt

out that it is an invariable rule with  
China not to grant absolute power to her  
plenipotentiaries, but merely to confer

JUDGE HOAR.  
The ex-Attorney-General Dying of a  
Heart Affection.  
Associated Press Local—Wire Service.  
CONCORD (Mass.), Jan. 2.—Judge E.  
Rockwood Hoar, Attorney-General under  
President Grant, is dying of a disease of  
the valves of the heart. Physicians who  
have been summoned in consultation say  
that the end is likely to come at any  
moment. Hoar realizes perfectly his con-  
dition, and has prepared for the end.  
Caring for him constantly are his two  
unmarried daughters, Caroline and Clara,  
who have long been occupants of the  
Main-street mansion of the Hoar family.  
The two sons, Samuel and Sherman, are  
frequent callers on their father. John,  
another son, resides on a ranch in Cali-  
fornia, while the home of the youngest  
daughter, who is the wife of Samuel  
Bowles, Jr., is in Springfield. Judge  
Hoar's wife died a few years ago.

Discussion of the Currency  
Bill's Fate.  
It is Thought that a Democratic Caucus  
Will be Held to Take  
Action.

Representative Sperry Announces  
that He has Prepared a Substi-  
tute for It—It Has Been  
Laid Before Grover.

Associated Press Local—Wire Service.  
WASHINGTON, Jan. 2.—Although Con-  
gress reconvenes tomorrow, there were  
only half a dozen members of the House  
at the Capitol today.

The fate of the currency bill debate,  
which will be resumed tomorrow, was  
generally discussed. There was a prevail-  
ing impression that a Democratic caucus  
will be held probably tomorrow night to  
consider the measure, but no official action  
looking to that action has been taken.  
It was the purpose of the Democrats be-  
fore the holidays to bring the bill to a  
final vote on Monday, but this is unlikely.  
Chairman Sayres of the committee ex-  
pects to have the District Appropriation  
Bill ready, by Saturday, and the Sundry  
Civil Bill completed about the middle of  
next week.

Mr. Sperry, a Democratic member of the  
Banking Committee, has prepared a sub-  
stitute for it, providing for the funding  
of the greenbacks with a 3 per cent.  
gold-bond issue. His substitute, it is un-  
derstood, was submitted to Secretary Car-  
lisle and by the latter laid before the  
President this afternoon.

CARE OF FORESTS.  
Considerable Interest Taken in the  
Bill Before Congress.  
WASHINGTON, Jan. 2.—Considerable  
interest has been manifested in the West  
over the proposed passage of the bill for  
the protection of forest reser-  
vations and it has become evident since  
the bill passed the House that it will en-  
counter no insuperable opposition in  
the Senate. The bill, when it first went  
to the Senate, was referred to the Com-  
mittee on Public Lands, but the reference  
was changed later and it then went to  
the Committee on Forest Reservations,  
of which Senator Allen of Nebraska is chair-  
man.

The necessity of proper care of the for-  
ests for the preservation of timber and  
conservation of the water supply in all  
arid mountain States and Territories  
is generally admitted, even by those who  
oppose the pending bill, but they contend  
that the selections of land for such res-  
ervations as have been made were made  
hastily and without adequate understand-  
ing of the conditions provided. They as-  
sert that many of the reservations are  
far more extensive than need be, and that  
they operate as a barrier to the settlement  
of large areas of country which might  
otherwise become productive.

It is asserted by them that timber only  
holds the snow in the mountainous re-  
gions and that many of the reservations,  
especially in Colorado, California and  
Wyoming extend to regions where the  
snow has no use at all. There is also  
objection to the principle of reserving  
national army as a guard for the res-  
ervations. Probably the objection to plac-  
ing the forest reservations under the dis-  
cretion of the Secretary of the Interior,  
which was made in the House, will also  
be revived in the Senate.

AMERICAN VILLAINS.  
Two Swindlers Wanted in London  
Arrested in Cape Town.  
Associated Press Local—Wire Service.  
LONDON, Jan. 2.—(By Atlantic Cable.)  
It is reported that Frank Tarbo, alias  
Frank Taylor, who, together with William  
Carroll Woodward, alias Hon. Lionel Mus-  
grave, were arrested here charged with  
participating in a fraud with outlaws at  
No. 15 Ulster place, Regent Park, and who  
afterward jumped bail, has been arrested  
at Cape Town.

Subsequent to the disappearance of  
Tarbo and Woodward, who also jumped  
his bail, the police learned that they were  
the noted American criminals, and the  
outlaw fight had its origin over a division  
of spoils. It appears that on Sunday, Oc-  
tober 7, a well-dressed man who gave his  
name as Arthur Saville, was thrown out  
by Arthur Cockburn, was lying in the hallway  
bleeding from wounds similar to those in-  
flicted on Saville. Lying near Cockburn  
were two outlaws, Tarbo and Woodward,  
the occupants of the house, were placed  
under arrest. They declared that Saville  
and Cockburn had been wounded in a fight  
following a drinking bout, and that the  
outlaws had been used by them (the pris-  
oners) in self-defense. Later they were  
admitted to bail, whereupon they disap-  
peared.

Then the police discovered, aided by  
New York police, that their quondam pris-  
oners had been in London for some time  
and were badly wanted. The man Saville  
turned out to be the younger son of one  
of the wealthiest dukes, and Tarbo and  
Woodward had robbed him by means of  
cards, of about \$300,000. Investigation  
showed that they had swindled many  
others out of very large sums of money,  
one of their victims being Samuel Lewis,  
probably the best-known and sharpest  
money-lender in England. Lewis is ex-  
tremely reticent in regard to the affair,  
and he refused to let how the sharpers  
had been dealt with.

Tarbo was at one time a leader of the  
notorious Joseph Irving gang in New York.  
The London police have been untiring in  
their efforts to locate the pair, and it is  
believed that they have been successful,  
as far as Tarbo is concerned. Woodward  
is wanted to answer for an additional of-  
fense committed just as he and his pal  
were about to quit the country. A man  
to whom they owed money learned in some  
way that they had gone to Gravesend. He  
followed, met them and demanded the  
payment of his debt. Woodward hit him  
with a stick, and was subsequently shot  
and nearly killed him.

## THE LEGISLATURE

State Assemblies Ready to Business.

Senator Lexow of New York Has Bill Giving the Mayor More Power.

Gov. Greenhalge to be Reinaugurated Today. Boston-New Mexico Legislators Organize in Opposition.

Associated Press Special-Service. ALBANY (N. Y.) Jan. 2.—In the Senate today Senator Lexow introduced a bill giving the power of removal to the Mayor of New York, and a bill to allow Mayor to give notice for hearings on a legislative bill relating to the 20th. Mayor introduced the blank bill.

The Senate has ordered the printing of the Lexow Committee's testimony. It will make 5000 pages. murderous robbers. There were in the barrel an old black slouch hat, parts of suits of rough clothing, the kind generally seen upon tramps, and parts of suits of red flannel underclothing. The latter were covered with blood.

One of the suits of clothes and a portion of one suit of underclothing was literally soaked with blood. It was found by one man, while others stood guard to prevent interference, and were engaged in the work.

It was known that the robbers had carried from the house a large bundle of clothing. It is now plain that, after committing their heinous work, they deliberately went into the back yard, where they cast off their old and bloody garments and donned the ones which they had taken from the house.

In addition to the \$1000 reward offered by Gov. Markham for the arrest of the murderers, Luther T. Webber and C. H. Beechey, son and son-in-law, respectively, of the dead people, have offered \$500.

A FAMILY PARTY. Teamster Ledgett Mauled and Cut by His Lively Relatives.

OAKLAND, Jan. 2.—John W. Ledgett, a teamster, was maulled and cut by his relatives at his home, No. 614 Broadway.

He had invited his father-in-law, John Scannell, from North Oakland, Scannell's three sons and several other brothers-in-law and their wives. There is a dispute as to how the fight started, but, according to Ledgett, who is now at the Receiving Hospital, the trouble began over a question of money.

After this matter had been discussed until all good-fellowship had departed, they began to drink. Ledgett's relatives, who were in the house, began to drink and to quarrel.

## WAR IN CHINATOWN.

## Another Shooting Affray on March.

The war in Chinatown is still on under the surface and though the wily heathens betray nothing, the police officers patrolling that district believe that the word has been passed and murder may be expected momentarily.

Only a few days ago, Leo Lung shot and killed his own cousin, Lou Chung, upon his refusing to keep him supplied with money in payment for his services for abducting a woman.

Now comes the beginning of the sequel to that tragedy, in the attempted murder of Lee Foo, a member of the Bing Gong Tong, last night.

Lee Ding, the would-be assassin, was "partner" to the man who a few days ago tried to steal back the woman from the deceased Chung's household, and this Lee Foo discovered the plot and gave it away in time to prevent the abduction.

Lee Ding, a member of the Hop Sing Tong, went on a hunt for Lee Foo, and upon meeting him on March 2nd, shot him four times at the hip, firing him twice. Both shots missed, but many members of the tong were present, and they were quick to the aid of their leader.

When the arrival of Officers Ritch and Robbins and the arrest of both men prevented a general battle. Both men are in the City Prison.

## SWINDLER CAPTURED.

Mr. Fletcher, alias Cooper, was arrested by Detectives Hawley and Auble yesterday, and is another star capture to the credit of the detective force.

Fletcher is wanted in San Francisco for fraudulent real estate deals and robbery, and has been hunted for high and low by the San Francisco detectives, who, after a feverish hunt, concluded that their man had gone East, and that he would probably escape the tolls. But Detectives Hawley and Auble very shrewdly followed a clue through a series of events, and after long and laborious work they located him.

He is now in the City Prison awaiting the arrival of one of the San Francisco officers, who was notified by the West that the man they thought in the East was a prisoner here. He is now on parole and will arrive today.

Fletcher worked on confidence. He would get hold of some real estate on time payments and then trade it off for a few days with friends in the city. He would dispose of cash to the highest bidder, all on the quiet. Thus he and his wife would get up a supply of cash and ship. He worked the scheme successfully in San Francisco. His wife is now in prison for the crime.

The man denied his identity when first taken into custody, but after the officers had worked with him awhile he acknowledged everything. In his first trial, San Francisco he went to Portland, Seattle, Denver, and finally, Los Angeles, and while all four cities missed the culprit, he like many other fugitives, met his Nemesis here.

Run Over by an Electric Car.

Charles E. Schmidt, a tailor, who resides at the corner of Main and Thirty-first streets, was run over by an Arcade-street electric car, near the corner of Third and Spring streets, yesterday afternoon, and sustained serious injuries.

Schmidt was going home on a bicycle, and "down" on a wheel, claims that the motorist failed to ring a warning bell. Anyhow, the car ran him down before he could get clear of the track, and the wheels passed over his right arm, tearing it off at the elbow.

He was taken to the City Prison for treatment, and from there was removed to his home.

Petty Larcenists Captured.

J. G. Lentz was arrested by Detective Bosqui yesterday and booked for petty larceny. He stole a baby carriage several days ago and sold it, and was trying to dispose of other stolen goods when captured.

Officers Tyler and Steele made another capture of a petty thief yesterday, in the person of John Johnson, who stole a pair of trousers from Schi's clothing store.

UNWELCOME GUESTS.

Conrad Scherer's House Visited by Thieves.

The house of Conrad Scherer, the contractor, on Seventeenth street, near Oak, was visited by an uninvited guest Monday evening. While the family were at supper a sneak thief effected an entrance to a front room by way of a window and got away with a purse containing a small sum of money belonging to a relative who was visiting the family.

Some noise was heard but his true name was not suspected and he fled off with the money. The purse which had contained the cash was found empty the next morning in the yard. It was thought the thief may have had some connection with an incident which occurred at the same place a few nights before.

At about 3 o'clock in the morning a servant chanced to hear a noise and upon looking out of the window, saw two men about to enter the front gate. Just then Mr. Scherer's big dog made its appearance with a bark of large proportions and the result was that the two midnight marauders took a very hasty departure.

WRECKED ON A REEF.

Narrow Escape from Drowning at Catalina Island.

O. T. Fellows of Little Harbor, Santa Catalina Island, had a miraculous escape from drowning the 23d ult. He started out in a skiff about 9 a.m. to fish, and went a little too close to a sunken rock outside the reef. There was a heavy swell running, which, breaking over the sunken rock, instantly captured his boat. When Mr. Fellows saw the danger, he sprang overboard, and, clinging to the crest of the wave, and, breaking over the sunken rock, he was able to escape.

He was not hurt, but he was very tired, and he was very wet. He was rescued by a boat from the shore, and he was taken to the shore.

## AS A WINTER RESORT.

Coronado Has the Warmest Climate in California.

There throngs of tourists from all parts of the United States and Canada make the trip every winter. It has long been the place of fashionable resort, until it now has become one of the popular winter resorts of America's people of note and refinement. Pleasure seekers and visitors of all classes are gratified without stint at the varied attractions, the abundance and character of the pleasures and pastimes provided for the enjoyment of guests at this favored part of California. This may well be called the paradise of the sportsman, as here there is boating, fishing, swimming in the hot and cold salt water tanks or in the surf, hunting, counting with blooded hounds either on horseback or in a carriage. It has the finest driveways and roads for horseback exercise or bicycling on this coast. The hotel, which is the finest winter-resort hotel in America, has every modern convenience, including steam heat throughout the building. Unlike most hotels, instead of making a charge for its use, the management prefers that guests keep the steam turned on rather than off. They do not have to send to the office for permits, keys, or engineers to turn it on, but simply hand a valve which any child can open and all is ready to use.

## The Long-delayed South Side Irrigation Problem Approaching Settlement.

## Street Car Safety Appliances Considered—Matters of Interest at the Courthouse—General Court News.

The Fire Commission was the only official body to hold a meeting at the City Hall yesterday. Several of the city officers were busy with the work of getting the records and effects of their offices into shape to turn over to their successors.

At the Courthouse considerable business was transacted. The sealed verdict in the Lee damage suit was opened and it was found that \$900 had been awarded the plaintiff. Judge Shaw also gave an opinion in the peculiar Harvey damage suit in which Mrs. Harvey is suing her husband's parents for alienating his affections.

## BETTER HYDRANTS RECOMMENDED—OTHER BUSINESS.

A full session was the last regular meeting of the Fire Commission yesterday. There was a full attendance but there were only a few matters of routine business to be disposed of.

The demands and requisitions were approved as presented.

The Chief reported having granted the petitions of Ammer, Crawford & Co. to erect a steam boiler on Grand avenue between Eighth and Ninth streets for a ferry-boat, and of P. H. Durkin & Co. for a steam boiler on No. 711 South Main street; also recommending the granting of the petition of B. L. Knapp to sink an oil well at No. 1322 Rockwood street, as there was no protest against it.

Contract and bond with Alex Gellard for the repairing of the East Los Angeles engine-house for \$490.40, as referred from the Council were referred to the body with the calling of attention to the fact that the contract makes no provision for the placing of the plumbing in proper condition.

The petition of R. J. Floyd, asking permission to place an oil tank of fifteen barrels capacity in front of his property, at No. 360 East Second street, was filed. It being explained that the granting of the petition would be in violation of the ordinance.

On motion of Commissioner Wirsching the City Water Company was requested to place what are known as "twins" fire hydrants on the large-sized mains being put down by the company. With these hydrants two lines could be instead of one, may be attached to each.

A petition of Armstrong & McGrew for permission to place a sawing factory at Eighth and Main streets was referred to the Chief.

George W. Allen's petition for permission to sink an oil well on his property on Rockwood street was referred to the Chief.

## South Side Irrigation.

## PROBABLE SETTLEMENT OF LONG-DELAYED PROBLEM.

It looks as if the long-delayed problem of how to settle with the South Side Irrigation Company in the matter of the delivering of city sewage to that company at the intersection of San Pedro street and the southern city boundary would soon be settled in much the same manner that was indicated some months ago in The Times.

It will be remembered that the city has for several years been selling sewage to the above mentioned company under a contract which was made several years ago.

By the construction of the Magdalen avenue sewer system the San Pedro street sewer at Washington street will be a number of feet lower than at present. As a result of this difference in elevation it is necessary to construct a new conduit at a lower level from Washington street to the city limits. This difficulty was finally obviated by an arrangement between the city and the company whereby the company was to advance the money for the building of the new conduit.

The city is, however, to reimburse the company for such expenses, taking in term of years to do so, and paying for it in sewage. The new conduit is to have lateral connections, and property-owners who connect with it are to pay the city for the same.

This gives the property-owners a sewer which they need not pay for till they have occasion to use it, and at the same time provides for the city a conduit at an available level from Washington street southward. The people along the street have for a long time been waiting for the sewer running there to be piped and the sewer, which is to be abandoned for sewer purposes, is believed, will make a good conduit for it.

This arrangement was practically agreed upon about three months ago, but on account of some minor difficulties the deal has not been consummated. At the last meeting of the City Council the City Engineer presented specifications for the proposed conduit over a route slightly amended from the one originally intended. The matter was referred to the Sewer Committee, in the hands of which body it now is.

## Street Car Safety Appliances.

At a recent meeting of the City Council the City Engineer was, on motion, instructed to investigate and report as to whether the appliances in use on the street-cars in operation in this city are such as are suitable for safety from accidents, as for instance where the brake may be broken while going down a steep grade. City Engineer Dockweiler said yesterday that the matter would be attended to and a report probably be presented on it as soon as well be could.

## December Health.

The report of the Health Officer for the month of December shows that there were 169 deaths, of which 58 were males. Of these 23 were from diseases of the respiratory system. During the same period there were 100 births, 53 being males. There were reported 37 cases of diphtheria, 4 cases of scarlet fever and 6 of typhoid fever.

## City Hall Notes.

The expected meeting of the Police Commission yesterday morning failed to materialize, and it is thought it will be held this morning.

City Justice Seaman reported for the month of December the collection of fees amounting to \$68.

City Engineer-elect Compton has filed a supplemental bond with George H. Bonebrake as surety in the sum of \$7000.

It is expected that the three new chemical engines for the fire department will arrive in the city about January 15.

## VERDICT IN THE LEE DAMAGE SUIT RENDERED.

At 10 o'clock yesterday morning Judge Clark opened the sealed verdict, returned at 1:45 o'clock New Year's morning by the jury in the damage suit of Charles A. Lee vs. the Southern Pacific Company, when it was found to be in favor of the plaintiff, whose damages were assessed at \$900.

In addition to the general verdict, the

Jury also found for the plaintiff on the following special findings submitted in the form of interrogatories:

No. 1.—In what year was the side track at Honby, upon which the accident complained of was alleged to have occurred, constructed? Answer—1886 or 1887.

No. 2.—Was said sidetrack constructed by the Southern Pacific Company? A—Yes.

No. 3.—Was the defendant, the Southern Pacific Railroad Company, at all times during the year 1888, a corporation duly organized and existing under the laws of the United States and the State of California, and at all times during said year the owner of the railroad upon which the accident complained of in this action is alleged to have occurred? A—Yes.

No. 4.—Was the Southern Pacific Company, a corporation organized under the laws of the State of Kentucky, at all times during the year 1888, and at all times during said year, and while plaintiff was acting as brakeman, and at the time the accident complained of is alleged to have occurred, operating said railroad under a lease from the Southern Pacific Railroad Company, a copy of which lease is in evidence in this case? A—Yes.

Immediately after the verdict had been recorded, counsel for the defendant moved the court to set it aside, on the grounds that the evidence was insufficient to justify it, and that the damages were excessive.

Plaintiff's counsel also moved the court for final judgment, in accordance with the verdict.

Both motions were argued and submitted, and the court thereupon continued the case for further argument, to be taken up on motion.

## PRICE OF HUSBANDS' AFFECTIONS.

Judge Shaw rendered his decision yesterday, overruling the demurrer to the complaint in the sensational Harvey damage suit, for the reasons given in a lengthy written opinion filed therein.

This action, it will be remembered, was brought on October 30 last, by Mrs. Mary A. Harvey against her husband's adopted parents, to recover \$10,000 damages, alleged to have been suffered by reason of their unlawful acts in inducing the young man to abandon his wife in order that he might marry their own daughter.

The defendants interposed a demurrer to the complaint, and sought to quash it on the technical ground that a wife can not maintain such an action.

Judge Shaw, however, in overruling the demurrer, concurs with the opinion on the subject rendered by Judge Van Dyke in the Crandall case, on October 4 last, and adds:

"One point now urged by the defendants here, which was not presented in that case, is that it is insisted that sec. 49 of the Civil Code, properly construed, has the effect to deprive the wife of the right to maintain such an action. The portion of the section in question is as follows:

"Sec. 49.—The rights of personal relation forbid:

"First.—The abduction of a husband from his wife or a parent from his child.

"Second.—The abduction or enticement of a wife from her husband, or a child from a parent or from a guardian entitled to its custody, or of a servant from his master."

"The first clause forbids the 'abduction' of a husband from his wife, but the second clause forbids both the abduction and enticement of a wife from her husband. It is argued that as this clause forbids the enticement of a husband from his wife, but only the abduction, it must be inferred that the enticement of a husband from a wife is not forbidden at all, or at least that it is not such a wrong as gives a right of action.

"This would be a fair deduction if it were once admitted that the Civil Code contains all the law in force in this State on the subject of husband and wife. It is said that this admission must be made in view of the provisions of sec. 4 of the Civil Code in effect, 'The Code establishes the law of this State respecting the subjects to which it relates, and its provisions and all proceedings under and in accordance with it are to be liberally construed, with a view to effect its objects and to promote justice.'"

Judge Shaw, after citing several precedents, concludes as follows:

"It certainly cannot be contended that a construction which would take from a wife a right of action for such a wrong would be one made with a view to promote justice. The point made is not deemed to be well taken, and the demurrer will be overruled."

## GIVEN A LIGHT SENTENCE.

In Department One yesterday morning William E. Scott, the jury recently convicted by a jury of the crime of grand larceny, for having stolen a gold watch and chain from the person of Mrs. Lillian M. Johnson, as he lay dying upon a table in the rear of Little's drug store, on September 2 last, appeared before Judge Smith to receive sentence.

When called upon to state what cause, if any, existed, why sentence should not be passed upon him, Scott begged for mercy, claiming that he was in an advanced stage of consumption and that a long term in the penitentiary would kill him.

His ghastly appearance bearing out his statement, the court took cognizance of the physical condition of the defendant and sentenced him to the State Prison for the term of five years only.

## A COLORED DIVORCE SUIT.

John P. Baber, a negro, appeared in Department Four yesterday afternoon with his counsel, J. F. Wheat, Esq., a young colored attorney, and one or two dusky friends as witnesses, and applied to Judge Dyke for a divorce.

He alleged that his wife, Melinda, to whom he was married down in Georgia some years ago, had voluntarily abandoned him, after hearing the plaintiff's testimony, and that of his witnesses, the court was satisfied that the case was a clear one for further hearing, until Saturday next.

## ADJUDGED INSANE.

Miss Mary J. Cook, a native of this State, 29 years of age, was duly adjudged insane and committed to the State Asylum at Highlands by Judge Smith yesterday morning, in accordance with the recommendation of Drs. Brainerd and Mathis, the examining commissioners.

The case is a peculiarly sad one, for the plaintiff is a woman of striking beauty and womanhood, the daughter of a well-known contractor, is, at times, in full possession of her faculties. During the proceedings at her examination, yesterday, for instance, her replies to all the questions put to her were lucid and intelligent, and her general demeanor rational, quiet and ladylike. Yet at other times, according to the testimony of her own relatives, she laughs immoderately without any cause, and then suddenly becomes terribly depressed. She also has hallucinations of sight and hearing, and imagines that someone will do her harm. On such occasions she becomes violent and threatens to kill both herself and others, and it is to prevent her from carrying these threats into execution that her relatives went to the extreme of having her committed to an asylum.

## SUPREME COURT OPINION.

The Supreme Court has reversed the judgment of the Superior Court of San Diego county in the case of M. Hall appellants vs. A. C. Cole and respondents, and remanded the case for a new trial.

The action is brought to recover possession of a house and land, together with the land, by defendants, or, if recovery cannot be had, then for the value thereof. Upon the trial of the case the judgment went for the defendants, from which an order denying his motion for a new trial, plaintiff appealed.

## MRS. SANSONE'S INJURIES.

In Department Five, yesterday, Judge Lucien Shaw and a jury were occupied all day with the trial of the damage suit instituted by Mrs. Richard Corraline Sansone and her husband against the Los Angeles Consolidated Electric Railway Company.

The plaintiffs allege that on June 17 last Mrs. Sansone, while riding on one of defendant's cable cars from the Boyle

Heights terminus to the Terminal Railway Company's depot was seriously injured on account of the negligence of the defendant's employees. At the first start of the grip caused the car upon which she was riding to stop very suddenly. The result was that she was jerked violently from her seat, and received injuries to her spine and nervous system from which she has never fully recovered. One of her legs has shrunk to such an extent that it is shorter than the other and useless. Furthermore, she suffers from insomnia and has lost her appetite, and, in short, she is a physical wreck. As she was in receipt of the snug little income of \$200 per month, from pupils to whom she taught the art of cutting dresses, but is now totally incapacitated for such work, she demands restitution in the shape of damages to the extent of \$20,000.

The defense contends that not only were Mrs. Sansone's injuries due to contributory negligence on her part, but that her present physical condition is not due to the accident at all but is the result of the ravages of consumption of long standing.

Consequently, Mrs. Sansone and her husband, in addition to proving that the injuries were received on account of the negligence of the defendant, are called upon to show that the latter was and is not consumptive. A number of medical experts, who have examined her, were called upon yesterday to testify to Mrs. Sansone's condition, and as many more are in attendance to give their opinions on the subject, the case will probably consume the whole of today's session.

## Court Notes.

Judge Clark yesterday morning rendered his decision in the case of C. J. Shepard vs. W. G. Haley et al., an action to recover money due on account, which was recently submitted to him, ordering findings and judgment for the plaintiff.

The case of E. W. Wright vs. A. B. Eshelman et al., an action to foreclose a mortgage on two lots in the Trust tract, came up for hearing before Judge Van Dyke yesterday, and resulted in judgment for the plaintiff in the sum of \$1504.47, as prayed.

The case of J. D. Reymert vs. Mrs. Ada B. S. Phillips, which was recently tried before the court, was continued to today, and decided by him yesterday, findings and judgment being ordered for the defendant therein.

## WHAT DOES IT MEAN?

Fact or Fiction About Two Great Fair Awards.

A newspaper paragraph denounces as "false" the claim of a baking powder company to an award at the World's Fair in Chicago, properly called the "Baking Powder Award."

Certainly not Dr. Price's. Why? Because, as the records show, Dr. Price's exhibited, competed and received the highest award, both at Chicago and California Midwinter Fair. The award in California included gold medal, the official certificate of the State of California, the purest, the most wholesome and efficient of all the baking powders. It is a monument to his name.

Can it be the manufacturers of New York powder, fictitiously labeled "absolutely pure," who are making "false" claims to the award? It is strange indeed, in as much as they were not even considered in the awards.

Was it a mistake in the New York powder that prevented its makers from competing? If not what?

## A Calendar Worth Having.

Almost every one has use for a calendar, and by the same token, they ought to have one that is of some use. A calendar that you have to study or "set" is of little use to you.

The one published by N. W. Ayer & Son, the newspaper advertising agents of Philadelphia is "just about the thing."

The handsome copy for 1895 carries on its seal their famous motto, "Keeping Everlasting at It Brings Success." It will alone each day be worth to all who use it far more than the price of the calendar.

Was it a mistake in the New York powder that prevented its makers from competing? If not what?

## Run Over by a Truck.

Yesterday morning, just after 10 o'clock, a led named G. Bandford, whose father is proprietor of the National Hotel on Main street, while playing with other boys, tried to jump on a truck that was passing by in attempting to jump on the heavy truck he missed his footing, fell to the ground, and the truck passed over the left leg. It was carried into the hotel and attended by Dr. R. F. Clark, who found the leg between the knee and ankle was badly crushed. He advised the fracture, but at present it is hard to say what the final outcome will be.

C. I. Tingstrom, the Myers-street resident so badly wounded New Year's night by the explosion of a gas-pipe cannon, was removed from the Receiving to the County Hospital yesterday. The man is in a precarious condition, and, though conscious, there is but little hope for his recovery.

The many friends of Prosser and Mrs. Weiler of Temple street will regret to hear that Mrs. Weiler was stricken with paralysis Christmas day at Pasadena where she had gone to visit her married daughter. Corner Cates held an inquest over the remains of Andrew Griffith, found dead at his home at No. 1615 Alhambra street, yesterday. Griffith was 64 years old, a native of Ohio, and was residing with a married daughter, Mrs. Higgins, at the time of his sudden demise.

An old man named G. F. Thompson, a resident of Calabasas district, was taken to the Receiving Hospital yesterday suffering from a fractured shinbone. His horse got fractious near the corner of Vermont avenue and Temple street, and shivered the front of his cart and did the injury. Officer Rice put the horse and cart in a stable, and as soon as he can travel the invalid will go to his home.

## ECHO MOUNTAIN HOUSE,

Mount Lowe Railway.

250 FEET ABOVE THE LEVEL OF THE SEA. AT THE SUMMIT OF THE GREAT CABLE INCLINE.

The Echo Mountain House is the finest and best-equipped mountain hotel in the world, and is second to none of the world-famed hotels of Southern California. In location it has no equal, being immediately overlooking the San Gabriel Valley, with mountains, foothills, ever-verdant valleys, towns, villages, Old Mission, sea beach, shipping, islands and ocean in full view. The climate is delightful, both winter and summer. It is never hot and never cold. On the verandas there are always cool breezes in summer, and in winter it is warmer than in the valley below. The sunrises and sunsets witnessed from its porches and verandas equal in grandeur the most gorgeous displays pictured by European visitors. An additional attraction is the Lowe Observatory, presided over by the eminent astronomer, Dr. Lewis Swift. Other attractions within easy reach of Echo Mountain House are numerous and will take days and even weeks to explore them, and no visitor should spend less than one day and night on these mountains—where more enjoyment can be had in the same time than in any other spot on the globe—to witness the gorgeous sunset and sunrise, the cities of Los Angeles and Pasadena below, with their thousands of electric lights glimmering like an immense lake of diamonds; the operation of the great World's Fair searchlight, and look through the telescope at the world; also the fine zoological collection of wild animals that inhabit the Sierra Madre Mountains. Eaton's. No better like accommodations in the valley. Weekly and monthly rates. Free time-table. A well-equipped livery stable at Altadena Junction for the accommodation of guests of the hotel. Guests stopping at Echo Mountain House will receive low-rate commutation tickets on the railway to visit the valley. For rates apply to H. R. WARNER, Manager.

BRITTON BLOCK, Spring Street, near Second.

## On January First

For a number of years we have always inaugurated a colossal sale previous to our annual inventory, known as the

## STOCK-TAKING SALE.

The trade reasons which call for such a sale are these:

FIRST—At no time in the twelve months is surplus merchandise of so little use to us.

SECOND—Coming right on the heels of the tremendous transactions of Christmas, there are more than the usual number of broken lines which must go to the consumer at some price, be it great or small.

THIRD—Winter goods must find an outlet while there is wearing time for them. We believe you will buy while you can make use of our merchandise, providing, of course, that we make prices temptingly low.

## A Round Half Million Dollars

In money is represented in this great combination of stocks, in which every man, woman and child on this coast can have a "share and share alike" interest at figures which are in many cases POSITIVELY LOWER THAN MANUFACTURERS WOULD NOW ACCEPT FOR THE SAME GOODS.

## No Half Measures About This Business.

A VIGOROUS POLICY VIGOROUSLY EXECUTED. In the long run this sale will make us money. The first losses will be ours, the gains will be yours, and in the end our stocks will be in the right condition. FOR THE ANNUAL INVENTORY
